

Oirase Gorge

※ Winter Season: Passable

The beautiful scenes continue for all 14km in total length at Oirase Gorge. It is designated for the National Park, and there is a lot of flow full of changes, mossy rocks, and beautiful highlights. Let's enjoy rambling with a camera and a loupe for the moss-watching.

※ There are various opinions for names listed in here and they may vary depending on the document.

Lake Towada

Picking any fauna or flora and removing rocks are prohibited
Thank you for protecting our ecosystem, and keeping this area beautiful for other visitors.

Please stay on the paths and wooden walkways while walking.
This is not only to keep you from getting lost, but also to prevent changes in the natural environment due to vegetation being trampled and soil being eroded. When using hiking poles, please use tip protectors to help keep the mountain trails from eroding.
